## I. Preparing for the Hot Dry Season 2020

### I.1 Financing of agricultural production:

To finance the production of the SSC 2020, awareness-raising information meetings are held and Credit advisory committees are being prepared in the different delegations.

Credit application files, POs from the Dagana delegation, submitted to LBA branches (St-Louis, Richard Toll, Ross Béthio) as of 01/16/2020, are subject to a total area of **18,673.54 ha** corresponding to a amount of **7 507 250 918 F CFA**. For credit files filed with Crédit Mutuel du Sénégal, on the date of 01/09/2020, the total area requested is equal to **301.05 ha** for an amount of **119 666 363 FCFA**.

Are deposited, at the LBA agency of Ndoum de Podor, on 01/21/2020, **88** credit application files for a area of **1820.96 ha** valued at an amount equivalent to **542 960 531 F CFA**.

## II. The Cold Dry Season 2019\_2020:

### II.1. Financing of agricultural production:

1<sup>er</sup> La Banque Agricole's Credit Committee (LBA / North Zone) met from 02 to 04 October 2019 in Matam, and the funding selected for this Cold Dry Season 2019-2020 campaign involves an amount of **2.124 billion CFA**, corresponding to an area of **2,244 hectares**.

The LBA credit committee (EST network) met on October 10, 2019 and the funding selected relates to an amount rated at **11 714 862 F CFA**, that is to say an area equal to **23.62 ha** of which **15.12 ha** for the chili, **4.5 ha** onion and **4 ha** of Yam. (LBA-East Zone).

In addition, the CMS regional committee met on November 5 and decided to finance the Kollangal locker up to of **5 251 024 FCFA**, i.e. an area of **10.28 ha** for the Onion speculation (*Weekly Monitoring Nov-19, Bakel Delegation*)

## II.2. Development forecasts and achievements (Year2 LM12):

Forecasts remain dominated by onion, industrial tomato and corn with respectively 41%, 20% and 17% of revised enhancement objectives.

Table 2: Development forecasts and achievements for the Cold Dry Season 2019\_2020

Source: Weekly Monitoring, SAED Delegations, SSF 2019/20

The achievements of the SSF 2019/20, to date, amount to **15,379 ha** that is **89%** revised objectives for the development of the second year of implementation of LM12, an increase of **2,762 ha** compared to SSF 18/19.

The enhancement of this SSF 19/20 campaign shows a trend of achievements mainly driven by the onion and the tomato are respectively rates of **37%** and **13%** sown during this period.

The potato speculation occupies an important part of this present development with **1,948 ha** of areas covered including **1,824 ha** in the Lac de Guiers area and **124 ha** located in the Lower Delta area of the delegation of Dagana.

## III. Wintering 2019\_2020:

### III.1. Financing of agricultural production:

The credit committees, 1st and 2nd, of La Banque Agricole (North Zone) met, the volume of credit retained for the financing of the agricultural production of the rainy season 2019\_2020 is evaluated for an amount of **5.502 billion CFA francs** (Source: LBA / ZONE-NORD, 2019).

In addition, the outputs, provided by the agencies of the northern zone, amount to an amount estimated at **3.029 billion F CFA** i.e. an area of **10,381 hectares**.

The results of the two credit committees, of the LBA Zone EST, show a financing program of **182 ha** for a amount assessed at **65 092 770 F CFA**. (Source: LBA / ZONE-EST, 2019).

### III.2. Development forecasts and achievements (Year2 LM12):

The sowing objectives are estimated at 35,345 hectares, of which 30,000 hectares are reserved for rice cultivation, ie 85%.

#### Combination of crops between Wintering 2019\_2020 and HIV 2018\_2019

#### IV. Research & Development Activities: Brief overview

For the 2019/2020 Dry Cold Season campaign, the **SAED** coordinates a technical experimentation project from Goutte à Goutte through the Champs Ecole Producteur (CEP) system. This project, 100% funded by the Tomato Committee, aims to feed the general reflection carried out within the **CNCFTI** on areas for improvement to be explored to raise the level income for tomato growers through a new irrigation system. Four **(04)** sites of **0.5 ha** have been so installed including 02 in the department of Dagana (**Gaya and Bokhol**) and 02 in Podor (**Fanaye and Guédé construction site**).

Are organized at the level of the Podor delegation:

- **A workshop to diagnose the capacity building needs of POs with the PARIIS project:** the responsables of the 14 Irrigated Village Perimeters (PIV) selected participated in the discussions that led to the formulation organizational, technical and administrative management needs.
- **A departmental tour with the managers of IPOS Podor :** the objective of this mission, organized from 20 on January 22, 2020, was to assess the development of development, collect statistics and raise awareness producers on the marketing of the expected production.

In Matam, the plots of OCP pilot trials with new fertilizer formulations are being harvested.

As a reminder, these validation tests aim to validate the new fertilizer formulations specific to the sites. developed by OCP for irrigated rice in Senegal.
