## I. The Hot Dry Season 2020:

### I.1 Financing of agricultural production:

LBA Zone Nord credit committees (1<sup>er</sup> and 2<sup>th</sup>) met, based on expressed needs of the order of **10.374 Billion F CFA** (equivalent to **27,066 ha**), the financing program selected by La Banque Agricole for the 2020 Hot Dry Season is **8.951 billion CFA francs** corresponding to an area of **23,975 hectares** (Source: LBA / Zone Nord, 2020).

In Bakel, the program adopted by La Banque Agricole to finance production is **1 425 388 F CFA** corresponding to an area of **six (06) ha** (Source: LBA / Zone Est, 2020).

Out of 14 files submitted to the Matam CMS for an amount of **50 614 207 F CFA** corresponding to an area evaluated at **255.70 ha**, all are retained, ie a rate of 100% of completion of the requests received.

In Dagana, **479.2 ha** and **150 ha** financing agreements were identified respectively with producers affiliated to microfinance CMS and Baobab. However, **9,986.16 ha** financing agreements are registered with certain individuals<sup>1</sup>, that is **35.74%** of all the financing agreements in progress in the Dagana delegation.

### I.2. Development forecasts (An3 LM12)

The development forecasts for SSC 2020, for the third year of implementation of LM12, are revised downwards and, they on 54,815 hectares of which 91% (50,000 ha) reserved for rice cultivation.

Table 2: Development forecasts and achievements for the Hot Dry Season 2020

Source: Hebdo Monitoring, SAED Delegations, 2020.

On the whole of the Left Bank of the Senegal River, on the date of **May 12, 2020** an augmentation of **7 percentage points** of the bet in rice value, is recorded either **3,429 ha** moreover, in view of the rice achievements of the SSC 2019 on the same date.

To date, the distribution according to the cropping calendar, of the sowing carried out on the whole of the valley (**49,781 ha** of which **98%** of rice), presents itself as following :

- **2%** of the areas currently cultivated are sown before February 15, 2020, i.e. **783 ha** ;
- Between the date of February 16 to March 17, 2020, are sown **46 %** areas developed, i.e. **23,079 ha**;
- Areas sown beyond March 17, 2020 cover **52%** of the entire development, i.e. **25,919 ha**.

The late start of the campaign, due among other constraints to the delay in holding the 1st credit committee, had an impact on the schedule cultivation in particular with so-called late sowing (beyond March 17) which occupy a significant part of the development, in particular that of rice. Thus, arrangements will be made by the authorities of the SAED, in collaboration with the heads of the Organizations Producers and other partners, for the smooth running of harvesting operations.

In addition, faced with the situation of the lack of urea, the DRDR and SDDR responded favorably to the referral from the delegations and, steps are being taken to make up the deficit.

## II. The Cold Dry Season 2019\_2020:

### II.1. Financing of agricultural production:

1<sup>er</sup> La Banque Agricole's credit committee (LBA / North Zone) met from 02 to 04 October 2019 in Matam, and the financing selected, for this Cold Dry Season 2019-2020 campaign, concerns an amount of **2.124 billion CFA francs**, corresponding to a area of **2,244 hectares** (Source: LBA / Zone Nord, 2019).

<sup>1</sup> VITAL 933 ha; CNT Suarl 2,456.42 ha, Mbodj & Frères 4,486.74 ha and NAXADI DERET 2,110 ha.

The LBA credit committee (EST network) met on October 10, 2019 and the funding selected relates to an amount estimated at **11 714 862 F CFA**, that is to say an area equal to **23.62 ha** (LBA-East Zone).

In addition, the CMS regional committee met on November 5 and decided to finance the Kollangal locker up to **5,251,024 FCFA**, i.e. an area of **10.28 ha** for the Onion speculation (*Weekly Monitoring Nov-19, Bakel Delegation*)

## II.2. Development forecasts and achievements (Year2 LM12):

Forecasts remain dominated by onion, industrial tomato and corn with respectively 41%, 20% and 17% of the revised development targets.

Source: Weekly Monitoring, SAED Delegations, SSF 2019/20

In Podor, the evacuations of the tomato are drawing to the end at a time when the onion marketing is experiencing enormous difficulties with the restrictive measures taken by the State as part of the fight against the COVID-19 disease.

At the Dagana delegation, the onion evacuations started at the end of February. At the start of marketing, the prices charged were not less than 200 FCFA / kg. However, a slight decrease in prices is noted and variations are noted between collection points oscillating between 145 F to 200 F / kg.

In Matam, the marketing of local onions is going well with a retail price negotiating between 250 and 300 FCFA per kilo. Imported onion is almost impossible to find on the market.

## III. Wintering 2019\_2020:

### III.1. Financing of agricultural production:

The credit committees, 1st and 2nd, of La Banque Agricole (North Zone) met, the volume of credit retained, for financing of the agricultural production of the rainy season 2019\_2020, is evaluated for an amount of **5.502 billion CFA francs** (Source: LBA / ZONE-NORD, 2019).

In addition, the outputs, provided by the agencies of the northern zone, amount to an amount estimated at **3.029 billion CFA francs** be one area of **10,381 hectares**.

The results of the two credit committees, of the LBA Zone EST, show a financing program of **182 ha** for an amount rated at **65 092 770 F CFA**. (Source: LBA / ZONE-EST, 2019).

### III.2. Development forecasts and achievements (Year2 LM12):

The objectives of sowing are estimated at 35,345 hectares of which 30,000 hectares are reserved for rice cultivation, ie 85%.
