Source: LBA / Zone Nord, 2019

The LBA credit committee (EST network) met on October 10, 2019 and the funding selected relates to an amount rated at **11 714 862 F CFA**, that is to say an area equal to **23.62 ha** of which **15.12 ha** for the chili, **4.5 ha** onion and **4 ha** of Yam. (LBA-East Zone).

In addition, the CMS regional committee met on November 5 and decided to finance the Kollangal locker up to of **5 251 024 FCFA**, i.e. an area of **10.28 ha** for the Onion speculation (*Weekly Monitoring Nov-19, Bakel Delegation*)

II.2. Development forecasts and achievements (Year2 LM12):

Forecasts remain dominated by onion, industrial tomato and corn with respectively 41%, 20% and 17% of revised enhancement objectives.

Source: Weekly Monitoring, SAED Delegations, SSF 2019/20

The achievements of the SSF 2019/20, to date, amount to **14,955 ha** that is **84%** revised objectives for the development of the second year of implementation of LM12. The potato speculation occupies an important part of this present enhancement with **1,948 ha** of areas covered including **1,824 ha** in the Lac de Guiers area and **124 ha** in Dagana.

III. Wintering 2019_2020:

III.1. Financing of agricultural production:

The credit committees, 1st and 2nd, of La Banque Agricole (North Zone) met, the volume of credit retained for the financing of the agricultural production of the rainy season 2019_2020 is evaluated for an amount of **5.502 billion CFA francs** (Source: LBA / ZONE-NORD, 2019).

In addition, the outputs, provided by the agencies of the northern zone, amount to an amount estimated at **3.029 billion F CFA** i.e. an area of **10,381 hectares**.

The results of the two credit committees, of the LBA Zone EST, show a financing program of **182 ha** for a amount assessed at **65 092 770 F CFA**. (Source: LBA / ZONE-EST, 2019).

III.2. Development forecasts and achievements (Year2 LM12):

The sowing objectives are estimated at 35,345 hectares, of which 30,000 hectares are reserved for rice cultivation, ie 85%.

Table 4: Development forecasts and achievements for the 2019_2020 rainy season

¹ Others: cassava, melon, peanuts, eggplant, watermelon, chili, carrot, cabbage, jaxatu, beans, bissap, banana plantation, fruit trees.

The enhancement of the 2019/20 wintering campaign, all speculations combined, compared to the enhancement final value of the 2018/19 wintering season, has seen an increase of **8,111 ha**, with an achievement rate of **99%** development objectives. This increase is largely attributable to the area cultivated with rice.

who occupy **85%** achievements for this 2019/20 wintering campaign.

Harvests are continuing throughout the Left Bank of the Senegal River. However, disasters, by flooding, are registered on **147.65 ha** in the Pété area in the Podor department.

Combination of crops between Wintering 2019_2020 and HIV 2018_2019

IV. Research & Development Activities: Brief overview

For the 2019/2020 Dry Cold Season campaign, the **SAED** coordinates a technical experimentation project from Goutte à Goutte through the Champs Ecole Producer (CEP) system. This project, 100% funded by the Tomato Committee, aims to feed the general reflection carried out within the **CNCFTI** on areas for improvement to be explored to raise the level income for tomato growers through a new irrigation system. Four **(04)** sites of **0.5 ha** have been so installed including 02 in the department of Dagana (**Gaya and Bokhol**) and 02 in Podor (**Fanaye and Guédé construction site**).

Workshops were organized by the PAPRIZ 2 project team in collaboration with the Podor delegation, around the following points:

- Explanation and sharing of the results of the pilot project on dual cultivation;
- Training on the development of a dual culture plan;
- Training of trainers in water management.

To the delegation of **Guiera Lake**, 2 GIEs started the Field Schools of Trainers and Producers at the level of Ngnith under the leadership of PDIDAS in collaboration with the agents of the technical services of the place (SAED, ANCAR, CADL, WATERS AND FORESTS, DRDR...). As part of the OCP tests, the delegation carried out four (4) tests, with the Domains and Geo-cluster SN1G2-1, SN1G2-2, SN1G2-3 and SN1G2-4, the results are in progress.
